

Revised Subcommittee Allocations

Ranking Member Rosa DeLauro

FISCAL YEAR 2025 FACT SHEET

House Republicans have written 2025 bills based on a sham funding [proposal](#) that [slashes critical domestic investments](#) and strips away education, job opportunities, housing, and food assistance that American families rely on.

House Republicans' Bills Leave \$60 Billion for American Families on the Table

- In March of 2024, House Republicans joined Democrats to increase nondefense discretionary (NDD) funding to \$778 billion – almost \$6 billion over the [Johnson-Schumer terms](#) attached to the Fiscal Responsibility Act of 2023 (FRA).
- Consistent with the one percent for 2025 increase called for in the FRA, and in line with the laws enacted in March, **NDD programs must grow by nothing less than one percent**, for a total of \$786 billion in 2025. Even House Republicans' partisan bills could not follow through on their threat to stick to the statutory caps alone, but **they still undercut American families by leaving at least \$60 billion in NDD resources on the table.**

Increases for a Few Agencies Means More Cuts to Other Critical Services

- House Republicans are protecting only a few agencies across the government. Providing increases for the Department of Defense and the Department of Homeland Security means cuts are even steeper for other programs.
- After protecting just a few agencies, **cuts to nondefense programs hurt hardworking people.** Cutting programs that help keep our communities safe, provide nutrition assistance, housing assistance, and job training programs increases the cost of living and undermines the economic security of American families.

Subcommittee	Chairman Cole's Revised Proposals
Agriculture	Cut by 3 percent. ✗
Commerce, Justice, Science	Cut by 2 percent. ✗
Defense	Increase by 1 percent.
Energy & Water	Cut by 1 percent in total... ✗✗
Financial Services and General Government	Cut by 10 percent.
Homeland Security	Increase by 1 percent.
Interior and Environment	Cut by 3 percent. ✗
Labor, HHS, Education	Cut by 11 percent. ✗
Legislative Branch	Increase by 6 percent in total... ^{\$}
Military Construction, Veterans Affairs	Cut by 4 percent. ✗
State, Foreign Operations	Cut by 12 percent.
Transportation, Housing and Urban Development	Cut by 10 percent.

Table reflects Chairman Cole's July full committee funding proposals compared to FY 2024 enacted levels.

✗ Small changes to Agriculture, Commerce, Justice, Science, Interior and Environment, and Labor, HHS, Education, and Military Construction, Veterans Affairs are consistent with the cuts in the Chair's initial proposal.

✗✗ Funding for Energy & Water is **cut** by 1 percent, but funding for defense programs **increases** by 3 percent while **inflicting NDD programs for climate, infrastructure, innovation, and science with a 5 percent cut.**

^{\$} Funding for the House of Representatives and agencies **other than** the Senate **increase** by 3.5 percent.
