

COMMITTEE ON APPROPRIATIONS

Norm Dicks, *Democratic Ranking Member*

FOR IMMEDIATE RELEASE:

Tuesday, April 12th, 2011

Press Contact: Ryan Nickel (202) 225-3481

Summary of H.R.1473; FY2011 Appropriations

Washington- U.S. Rep. Norm Dicks, ranking Democratic Member of the House Appropriations Committee, issued the following statement today regarding H.R.1473, the agreement reached last week to fund the government through the remainder of the current fiscal year:

“Like all Members, I was relieved and encouraged when the leadership of both houses of Congress and the Obama Administration avoided a government shutdown and completed an agreement on funding levels for the remainder of this fiscal year late on Friday.

“It would have been irresponsible and I believe unnecessary for us to allow our partisan differences to result in the chaos and the loss of vital government services that would have ensued if Congress had not taken action to continue funding beyond last Friday night’s deadline. I said repeatedly that it would be the worst possible outcome, especially at a time when we are at war and when our economy is still fragile.

“What we achieved was an imperfect result, to be sure, but it represented a compromise that the President believed was in the best interests of the nation while protecting the highest priorities of his Administration and the Democrats in Congress.

“The compromise legislation includes some clear achievements for our caucus, including protection of critical funding for Pell Grants, various elements of the new health care reform law, the Head Start program and Community Services Block Grants. At the same time the compromise that was reached between the House Republican Leadership, Senator Reid and the Administration included several elements that many of our Members would not have accepted. The entire compromise legislation is thus presented to the House membership this week and each Member must consider all of the ramifications before casting a vote.”

Below is a summary of key funding levels:

Agriculture

- The Women, Infants and Children's (WIC) nutrition program is funded at \$6.7 billion; \$243 million above HR1.
- The Commodity Supplemental Food Program is funded at \$176 million; \$5 million above the FY2010 enacted level and \$25 million above HR1.
