

# ENERGY AND WATER DEVELOPMENT, AND RELATED AGENCIES

Chairwoman Marcy Kaptur

Fiscal Year 2023 Appropriations Bill At-A-Glance

Provides **\$54.65 billion** to confront the climate crisis, lower costs for hardworking families, create better-paying jobs, rebuild our water infrastructure, and strengthen our nuclear deterrent.

## Confronts the Climate Crisis while Creating Better-Paying Jobs

- Includes more than \$15.3 billion of transformative investments in clean energy and science, which will help develop and deploy clean, affordable, and secure American energy and create tens of thousands of green jobs in communities across the country:
  - \$3.5 billion for Energy Efficiency and Renewable Energy, including \$471 million for State and Community Energy Programs to increase energy affordability and transform the energy economy by working with state, local, and community-level partners
  - \$8.1 billion for the Office of Science to expand scientific understanding and secure the nation's global leadership in energy innovation
  - \$470 million for the Advanced Research Projects Agency—Energy (ARPA-E) to support high-potential, high-impact new energy technologies

## Rebuilds Water Infrastructure

- Revives our water infrastructure and protects communities from more frequent and severe storms with \$8.66 billion for the U.S. Army Corps of Engineers to support project investigation, construction, operation, and maintenance
- Addresses the worsening drought and funds water resources projects with \$1.9 billion for the Bureau of Reclamation
- Promotes a robust economy by bolstering our port and waterway infrastructure including through the Harbor Maintenance Trust Fund

## Strengthens our Nuclear Deterrent

- Enhances our national security by providing for a safe and secure nuclear deterrent while addressing the threat of nuclear proliferation and terrorism
- Protects our environment by funding legacy nuclear cleanup work through Environmental Management programs at \$8.3 billion

## Lowers Costs and Supports Economic Development

- Helps lower energy costs impacting working families by strengthening America's energy independence
- Supports economic and community development, job training, and critical infrastructure with \$200 million for the Appalachian Regional Commission, \$40 million for the Northern Border Regional Commission, \$30 million for the Delta Regional Authority, \$17 million for the Denali Commission, \$20 million for the Southeast Crescent Regional Commission, and \$5 million for the Southwest Border Regional Commission
