

FISCAL YEAR 2025 FACT SHEET

House Republicans are making America less safe. Their 2025 Commerce, Justice, Science, and Related Agencies appropriations bill would eliminate thousands of federal law enforcement positions, open communities up to more devastating mass shootings, make the U.S. more vulnerable to terrorist attacks, and slash resources for programs that protect women and children from violence. **Republicans promote their dangerous agenda while Democrats work to make our communities safe.**

Defunds Federal Law Enforcement, Threatens National Security

- Forces the FBI to reduce its workforce by thousands of positions, underfunding this agency that keeps us safe by nearly \$1 billion.
- Eliminates Federal agent, analyst, and prosecutor positions by slashing resources for the U.S. Department of Justice including the U.S. Attorneys, the Bureau of Alcohol, Tobacco, Firearms and Explosives, and the Antitrust Division. House Republicans are making it harder to prosecute dangerous criminals while making it easier for big corporations and billionaires to take advantage of Americans.
- Cuts resources to protect the U.S. from harm, including espionage, domestic and international terrorism, and other threats.

Makes Families and Children Less Safe

- Opens our schools, grocery stores, churches, concerts, and communities up to more devastating mass shootings by making it easier for guns to end up in the wrong hands.
- Slashes legal services and makes our communities more vulnerable to crime by cutting Juvenile Justice grants, hate crimes grants, and other resources that prevent violence.
- Completely eliminates the Community Relations Service and the Community Violence Intervention and Prevention grant program.

Harms Communities and Hurts the Economy

- Guts Economic Development Administration programs that create jobs, revitalize distressed local economies, and support American businesses predominately through investments in rural communities.
- Slashes the Minority Business Development Agency, the only federal agency tasked with promoting the growth and competitiveness of minority-owned businesses.
- Blocks funding for the implementation of initiatives to combat the climate crisis.

Continues Republican's Attacks on Women's Health and Safety

- Bars funding for the Reproductive Rights Task Force, litigation against States or local governments regarding abortion laws, and guidance to prevent harassment in the workplace.
- Cuts Violence Against Women Act grants that help reduce domestic violence, dating violence, sexual assault, and stalking.
- Prohibits funding for a rule that requires businesses to make reasonable accommodations for employees seeking abortion care.
