

## INTERIOR, ENVIRONMENT, AND RELATED AGENCIES

### SUMMARY OF FISCAL YEAR 2026 BILL

#### Interior, Environment, and Related Agencies

The fiscal year 2026 Interior, Environment, and Related Agencies bill includes \$38.6 billion, which is \$9.5 billion above the Trump Administration's budget request. The bill also provides \$2.9 billion for the Wildfire Suppression Operations Reserve Fund. The bill does not include language to consolidate Forest Service and Department of Interior (DOI) wildland fire management into a new bureau within DOI.

The legislation:

- **Protects public lands, national parks, and endangered species** by rejecting more than \$9.5 billion in devastating cuts imposed in the House Republican bill and eliminating over 66 new House Republican poison pill policy riders.
- **Curtails the reckless abuses of the Trump Administration** by adding robust bill strengthening provisions, including staffing thresholds, notification requirements, and the incorporation of funding tables that codify precise dollar figures for specific programs, reasserting Congress's power of the purse and diminishing the administration's discretion over hundreds of millions of dollars in Congressionally approved spending.
- **Supports Native American families** by investing in a strong and resilient Indian Country, including through education and health care programs.
- **Prevents corrupt abuses by the Trump Administration** by blocking the use of National Park Service construction funding for a Triumphal Arch, protecting funding for the Smithsonian American Women's History Museum and National Museum of the American Latino, and rejecting Republican attempts to rename the Kennedy Center Opera House after a member of the Trump family.
- **Fully funds the National Endowments for the Arts and Humanities** at \$207 million each, rejecting extreme proposals by the Trump Administration to eliminate them entirely.
- **Protects the environment** by rejecting the administration's radical attempts to eliminate Environmental Justice funding, instead providing \$30 million in funds, and protecting environmental funding for states.
